The Daily Union-Vedette.

WEDNESDAY MORNING, AUG. 6, 1896

A Word to some of our Readers.

On other occasions we have said pleasant things in our home-ly way to our patrons; we propose now to address a few words to another class of readers. We know that the Vedette is an intensely interesting sheet, and as our subscription lists swell, and keeps swelling until our growing list has attained the full proportions of a prosperous journal, we can't help thinking how many debar themselves of lighter pleasures in order to send us their two dollars a month or five for a quarter, etc., in advance. Of this we are duly sensible and grateful, and in it acknowledge a proper pride. But then it grieves us that there are some folks in the City too mean to subscribe for the Daily. And yet, strange to say they have so great a passion for our little pet, that they can't resist snaking it out from under the door-sill or filching it from the garden of our bona fide subscribers.

Now this isn't just the thing, in a Saintly or moral burg, like Salt Lake City. In the first place it isn't convenient to anybody. The miserable devil who does it, has to get up very early in the morning, breaking his natural rest, and spend a half an hour sneaking around town, or watching round a corner, to successfully carry on his petty pilferings. It isn't good economy either. If he would just spend in some honest work, a quarter of the time thus wasted, he could earn twice over the amount of subscription, and have his own paper and not anybody's else, to read at his matutinal meal. He would, too, have a better conscience, and could more properly commend our good things to his wife and little ones. Then the honest subscriber wouldn't be in a fidget about his lost paper—wouldn't be compelled to get in a rage with our accommodating carrier, for "not leaving this morning's paper;" wouldn't have to look blank and say nothing but "swear" when the first little knot of people are laughing over something "remarkably good" in this morning's paper, but which he hasn't yet seen. In fact it is bad business all around. It's terribly provoking. It's costly to us—both in money and temper. It's mean; deuced mean; scaly; villainous and "altogether intolerable and not to be endured." More than that, the thing has got to be stopped.

There are a certain class of people in S. L. City who are forbidden to subscribe for the Vedette, but who are so anxious to see its contents that they do not hesitate to resort to petty theft. These persons should not allow the false teachings of Mormon Leaders to debar them of reading a journal so vitally interesting as is the Vedette. A journal devoted to the interest of the people at large; at any rate they should not commit crime for the sake of obeying the counsels of those by whom they are guided.

This problem of the Washoe mines is not yet solved. There seems to be no doubt but that the first body, or vein, or zone of ore has been nearly worked out, and whether there is another one at the depths towards which shafts are now tending, is a query. The big hollows in the mountains whence the ore has been taken give back dreary echoes when questioned. They have a singular influence upon speculative visitors. They have been known to produce terrible cholera very suddenly. As the depth becomes greater, the expense increases in a rapid ratio. The first cost of timber for inclines is \$1,000 every thirty feet, to say nothing of decaying old ones, caving walls, etc. To "prospect" under such circumstances requires confidence. —*S. F. Alta, July 24.*

IN the course of an examination under an examiner whose name was Payne, one of the questions was, "Give a definition of happiness." To which the candidate's answer was, "An exemption from Payne."

(TO DENVER.)

New York, July 15.

Metamorphosis of the 8th, from Imperial sources, state that the Mexican Republicans under Negrete had finally been effectually scattered—that they had been disbanded the greater number of them had sought refuge in Texas.

The indications of approaching trouble between our forces in Texas and the Imperialists, were increasing.

The Herald's Galveston correspondent gives additional accounts of the exodus of the rebels from Texas to Mexico. The rebel General Shelley, with 3,000 of his followers, accompanied by Ex-Governors Moore and Allen, of Louisiana, and other distinguished political luminaries of the late Confederacy, were on the way. They had transportation and supplies for six months, and all were armed with the weapons which they faithfully failed to surrender to the National Government in accordance with the terms of Kirby Smith's capitulation. They professed though that they were merely going to Mexico as emigrants and not to fight for either the Republicans or Imperialists.

The Herald's Washington special has the following: Being Cabinet day no other business of importance has been transacted at the White House. The President is sufficiently recovered to resume his usual hours of labor, and the Cabinet meeting was a full, or rather a long one—the delay in making out the appointment of Judge Morwin, as Provisional Governor of Florida, and the publication of the President's proclamation in relation to the matter, has been delayed by the impossibility of fixing the date of the secession of Florida, in December, 1860—strangely enough, leading authorities differ nearly, or quite a week.

The President has appointed George W. Dennison, of Arkansas Register of the Land Office, at Little Rock, in that State, and John Kirkwood, of Kansas, is appointed Receiver at some place.

Hon. John Fletcher, of Ohio, is mentioned as the probable successor of Mr. Hathaway, as Commissioner of Patents.

The Times' special says that evidence is daily being received of the repentance of many of the rebels who resided abroad during the war. They apply to our Ministers and Consuls for permission to take the oath, which is freely given. Among the oaths thus administered and recently received here for registration, are those of Mrs. and Miss Hartle, formerly wealthy residents of Beaufort District, S. C. They do not come within the \$20,000 clause.

Asst. Sec'y Seward and wife will leave for Cape May in the course of the week, to spend a few weeks, at the close of which, Mr. Seward expects to be able to resume his official duties.

The following appointments have been made by the President within the past few days, and are officially announced: John F. Hartley to be Asst. Secretary of the Treasury, vice Field, resigned; D. M. Fleming to be Assessor of Internal Revenue for the 4th District of Ohio, Jas. Webster for the 2d District of Georgia, James Telfridge for the 11th District of Pennsylvania, Julius E. McCune for 3d District of Louisiana, Ancile J. Barnes for the 1st District of Arkansas; Wm. Crounelt to be Collector of Customs at Oswego, N. Y., T. Wilkins at Erie, Pa., W. S. Havens at Saginaw Harbor, Jas. Brody, jr., at Fall River, N. Y., Truman Horman at Belfast, Me., P. W. Morkin at Newark, N. J.; R. R. Smith to be Tax Commissioner of the District of the State of Texas; Wm. Miller to be Receiver of public moneys for district of land subject to sale at Montgomery, Ala., Jas. Rowe, of Ohio, to be Receiver of public moneys for district land subject to sale at Chillicothe, O.; John Edwards to be Agent for the Indians of the upper Arkansas Agency; John A. Clarke, of Illinois, to be Surveyor General of the United States, for the territory of New Mexico; Wm. B. Franklin, of Ohio, to be Register of the Land Office at Chillicothe.

From New Mexico.

A correspondent of the last newspaper of the West—the Sacramento Union—has the following from its Santa Fe, New Mexico, correspondent:

The Rio Grande has been playing havoc with the country below the "Jornado del Muerto," flooding ranches and destroying the growing crop, and in some few of the villages washing away buildings. Combined with this the crops have been injured by grasshoppers and worms, so that famine threatens the people. At Las Cruces, Mesilla, Pecos, Dona Ana, Franklin, Yalta, Socorro and San Elizario, the poor classes have already called for help and aid from the Government. General Carleton, Commander of the Department, with his usual promptitude and generosity to aid the suffering, has authorized the issuing of breadstuffs to assist them. The wealthy citizens of Dona Ana county are calling upon their neighbors also to donate what they can for the sustenance of the poor.

The contest for Delegate to Congress to represent this Territory has commenced, the candidate being the present incumbent, Francisco Peres, and J. Francisco Chares y Peres, late Lieutenant Colonel of New Mexico Volunteers. Here, politics are not based upon party or party ties, but upon individuals. Many of the people are prejudiced against the Indian reservation, especially so as regards the placing of Apaches and Navajos at the Borque Redondo. They are at present in the hands of the military as prisoners of war, and who, from motives of economy, and the general good to be derived from their civilization,

have been compelled to turn and other labor, while awaiting action from the authorities at Washington as to their final disposition. Of this class Chares is the representative. Peres represents the Reservation policy and the military.

The mines near this city, worked many years ago under the rule of Old Mexico, are about to be worked again; a number of discharged Californians and others having, under the new mining laws enacted at the last Legislative Assembly, located and recorded claims, which are reported to be very extensive and rich.

Among the recent political changes, Colonel Collins, editor of the Santa Fe Gazette, succeeds Major Greiner as Designated Depository, Santa Fe. Don Felipe Delgado, merchant of this place, succeeds Dr. M. Stock as Superintendent of Indian Affairs.

Butterfield, of Wells, Fargo & Co., is reported about to establish an Express line from points east of the Missouri river to this city. Should he do so, it will be an advantage and accommodation to our merchants and others, who at present are compelled to endure exorbitant charges by the stage company.

The First Cavalry, California Volunteers, headquarters, are stationed here under Colonel Brown, formerly a resident of Stockton. Many grave and serious charges are made against him by the soldiers of his command.

Thomas Bartlett, formerly a pressman in your office, and who came away from California in a Shirland's Folsom Company, is now a Lieutenant in Kit Carson's Regiment of New Mexico Cavalry, and is commanding General Carleton's escort. General Carleton and Staff have left on a visit to the different posts in the northern part of the Department.

The first train from the States arrived on the 25th, with Spring goods consigned to Jewett & Co., and now arrivals of trains are almost daily, bringing new stocks for the merchants. A large quartz crushing mill passed through here en route to Arizona, owned by G. H. Vickroy, who intends to put it up near Prescott.

THEATRICAL.—Speaking of Mrs. Hayne and the Porter Troupe, now among us, the Boise Statesman, of the 1st, has the following:

Our citizens have had a rare treat during the past week in the theatrical line. Under the management of Mr. G. R. Waldron, an excellent company, with Mrs. Julia Dean Hayne as the bright particular star, have had a brilliant series of tragedies, dramas and sterling comedies, the like of which will perhaps never be witnessed again in Boise City. Among those in support of the above talent are found the pleasing and versatile artists Mrs. Leslie and Miss Bell Douglas, Messrs. Mortimer, Leslie, Townsend and others. A large and appreciative audience has been in attendance each evening, and our city has been in a sort of theatrical furor all the time. Mrs. Hayne has given us her splendid and chaste rule of characters—the same which she has impersonated in all the cities and towns in the United States, and in many parts in Europe. We will not attempt a criticism of this estimable lady's performance; the best writers in America have attempted that task. But we will say that her name has become a household word throughout the land; and that the profession almost reverence her, and that she is an ornament to any society which is blessed with her presence and companionship.

FROM COEUR D'ALENE.—Among the numerous arrivals here this week from the Coeur d'Alene country our old friends Sank Owens and Geo. Stonerod have made their appearance. Mr. Owens says several hundred people from this portion of the Territory are now making their way again to the Boise Basin, thinking "there's no place like home." No gold has been found in that country. Mr. Owens was at the Mission, and in the mountains at the north—found plenty of people hunting for diggings who could not find the color in the country. Wilson was making his way out of the country at the most rapid rate, some of the miners threatening to hang him if caught. There was considerable suffering among the prospectors for want of provisions. The country about the Mission is represented by Mr. Owens to be a fine Indian country; plenty of streams and any quantity of mountains, with some fine valleys; but there was no sign of gold or quartz. In fact there is no foundation whatever for the rumored discoveries in that quarter. Many of the miners have gone to Prickly Pear and Blackfoot. Some of them intend to return to the Boise Basin by that route; following along the base of the foot hills to Snake river. The news from the diggings was not encouraging. —*Idaho World.*

READERS.—Readers may be divided into four classes. The first may be compared to an hour-glass, their reading being as the sand; it runs in and runs out, and leaves not a vestige behind. A second class resembles a sponge, which imbibes everything, and returns it nearly in the same state, only a little dirtier. A third class is like a jelly bag, which allows everything that is pure to pass away, and retains only the refuse and dregs. The fourth class may be compared to the slave in the diamond mines of Golconda, who casting aside all that is worthless, preserves only the pure gems.

The Daily Union-Edette

Local and Miscellaneous.

Be kind to soft music, when
Of love and peace thou sweetly singst;
But diamond be thy point, my pen,
When crime's dark bolts are round thee ring.

Our item column is surrendered to
day to interesting telegraphic matter.

Among the new fashions in New York
at present is this, that no lady goes to
the grave with husband, child or friend.
Women are compelled to sit solitary in
the house, while the gentlemen attend the
burial. Many lament the heartless cus-
tom, but fashion is inexorable.

The Central, Colorado, *Miners' Regis-*
ter says: "The average of assays show the
ores of Snake River fully equal to any
ever worked in Nevada; six pounds of
average ore, smelted and cupelled by
Short & Cooley produced between thirty
and forty cents a pound."

PUBLIC GAMBLING.—Denver city is
coming down a peg in public morals
judging from the following card found
standing in its daily papers:

New Club Room!—Ric. Hammel will
be pleased to see his friends, in his new
front rooms, over the Progressive. Faro
opened every day and evening. Limits
\$100 open. Ric. HAMMEL.

AMMUNITION FOR LARAMIE.—Two ar-
mies laden with Spencer cartridges,
upon order from Gen. P. E. Connor,
were sent off post haste to Laramie.
Thursday afternoon. Orders were em-
phatic, to make quick time. A sufficient
escort accompanied them. So the Gen-
eral is preparing for action.—*Denver Ga-*
zette, July 23.

SOCIAL PARTY.—A grand Soiree will
be held on Friday evening, August 11th,
at the Hall of the Literary Association,
by the members of Rev. Norman Mc-
Leod's Congregation, their acquaint-
ances and friends, and those who are
favorable to establishing and encourag-
ing true social and religious interests in
our midst. Lots of music and refresh-
ments are ordered, and a gay and grand
"good time" expected ere the close.

A MODEL STORE.—A "look through"
the wholesale and retail departments of
Ransohoff & Co's spacious warehouse,
west side of East Temple Street, as-
sured us that the establishment is hard to
beat for fine assortments of new goods,
for the convenience of its departments,
and for the elegance of their arrange-
ment. And they expect forty wagons
more, with general merchandise, in a
month or two. Read over their new
column advertisement this morning and
then drop in and examine their splen-
did stock of everything. Seeing will be
believing.

READ particulars of the Brother Jon-
than calamity in another column. Ma-
ny of the passengers lost on the Brother
Jonathan were among the prominent
citizens of San Francisco, and the disas-
ter has thrown the whole city into mourn-
ing. The dispatch informs us at the be-
ginning that there were between two
and three hundred passengers on board.
The list of passengers, however, shows
but one hundred and thirteen, exclusive
of the crew, which numbered sixty. Of
the passengers thirty three were women
and thirteen children. But fourteen men
and one woman are known to have been
saved.

INDIAN TREACHERY.—Speaking on this
subject, perhaps for the "special benefit"
of the Honorable Mr. Doolittle, the *Black*
Hawk, Col. Journal says:

"There was a time, in our opinion,
when some of the Arapahoe and Chey-
enne Indians might justly claim to be
friendly, but from whatever cause, that
time seems to have passed. The Indians
come in and claim friendship and pro-
tection only for the purpose of getting
the advantage, which they relentlessly
use to steal or kill as happens. With
so many instances of it before us, our
officers would be stupid to allow them-
selves to be further fooled by so transpar-
ent an article."

Oh No! We Guess Not!

The twenty-fourth of July was the
eighteenth anniversary of the arrival of
Mormons in the valley of the Great Salt
Lake. Commenting upon the subject,
the *Daily Telegraph* says:

"When these pioneers have been dead
sufficiently long, they will be immortali-
zed, and take their place with their pre-
decessors of Plymouth Rock."

They will be immortalized no doubt,
but as to their taking their place beside
the Pilgrims of Plymouth Rock, we think
the immigrants of the last twelve years
and their descendants will place the
"Saints" in a very different category.
The time when "bishops" and "elders"
ranted mingled obscenity, treason and
defiance to Federal authority, is yet dis-
tinctly remembered; and the evidence
in the Mountain Meadows affair has not
yet all passed away. O, yes; history
and posterity will take care of those "pio-
neers," and find a fit niche for them!—
Boles Statesman, 1st inst.

The following is said to be the
copy of the letter sent by a mem-
ber of the legal profession to a
person who was indebted to one
of his clients: "Sir, I am desired to
apply to you for one hundred
dollars, due to my client, Mr.
Jones; if you send me the money
by this day week, you will oblige
me; if not, I will oblige you!"

From San Francisco.

LATER OF THE BROTHER JONATHAN

San Francisco, Aug. 2.
Governor Lowe published a card in
to-night's Bulletin withdrawing his name
from the contest for Senator.

The Nile, of New Bedford, arrived to-
day with the crews in part of ten more
vessels destroyed by the Shenandoah.
part of the same having been taken to
the Sandwich Islands by the Brunswick
on the 29th. The Nile saw an unknown
vessel in flames, making the twenty-
ninth which are known to be destroyed
by the pirate. The Shenandoah was
seen the same day steering south, to-
wards St. Lawrence Bay. Two vessels
down from Puget Sound report seeing
on Saturday and Sunday last, a vessel
exactly corresponding in appearance
with the Shenandoah.

The following is the list of passengers
of the Brother Jonathan, as obtained
from the office of the California Steam
Navigation Company. Who are saved it
is impossible to state at present:

Brig. Gen. Wright, U. S. A., and wife;
Lieut. E. D. Walte, U. S. A.; Miss Mary
Perry, S. Meyer, David McHartie, A. L.

Adams, two Indians, R. S. Manly, Harry
Abrams, Thos. Gullan, C. Bisner and
Wells, Fargo & Co's Messenger.

Mr. Nesbit, of the Bulletin, was on a
trip to Oregon, Washington Territory,
and British Columbia, and started with
the intention of being absent four or five
weeks.

The terrible catastrophe has thrown
the whole community into mourning.
Anxiety, sorrow and horror are depicted
on every countenance. Every flag in
the city and on the shipping in the
bay is at half mast. The terrible un-
certainty as to the fate of those who
were on board, and may possibly have
been saved; and the fact that none of
the names of the survivors are published
adds to the anxiety.

Unfortunately, the distance from the
scene of the wreck to the telegraph sta-
tion at Jacksonville is so great, one hun-
dred to one hundred and twenty miles,
that there is no certainty at what mo-
ment we may receive further particulars.
If indeed we are not compelled to wait
until the arrival of the express messen-
ger from Crescent City at Jacksonville.
He is due there at 5 p. m. to day.

LATER.

JACKSONVILLE, Oregon, August 2.
The last seen of General Wright, he
was standing on board holding a life-
preserver in his hand. There were two
boats swamped before the one got off
with the fourteen men, woman and child.
Captain Buckley had men out patrolling
the beach all night and the next day, so
as to pick up any who might drift ashore,
but there was no drift of the ship, nor
did any wash ashore up to ten o'clock on
the 31st ult. The boat fired two guns,
but they were thought to be only signals
from some upward-bound boat. There
was nothing known of the wreck until it
was revealed by those who made their
escape in the small boat. The Brother
Jonathan was wrecked by running on a
sunken rock near Crescent City.

Small We Retire.

A couple sat beside the fire,
Waiting which should first retire,
The husband sportively had said,
"You should go and warm the bed."
"I never will," she quick replied;
"I did it once and nearly died."
"And I will not," rejoined the spouse,
With a look of sad lowering brows,
And a war of words arose,
Continuing till they nearly froze,
When both grew pale and shivering
Around the faintly glimmering fire,
They trembled over the dying embers,
As though the ague had seized their
members.
Resolved, like heroes, ne'er to yield,
But force each other from the field,
And thus this once fond loving pair
In silence shook and shivered there,
Till every spark of fire was gone,
And cocks were crowing for the dawn;
When all at once the husband said:
"Wife, had'n't we better go to bed?"

We wind up clocks to keep
them running, and banks to stop
their running.

Of the seven deadly sins, it is
only that most disturbs the peace
of mankind.

A dead hen is better than a live
one; she will lay wherever you
put her.

"Love in a cottage" is very
well, when you own the cottage,
and have lots of money out at in-
terest.

No man ought to enjoy what is
too good for him; he should make
himself worthy of it, and rise to
its level.

What will paralyze small minds
may incite larger ones, as the
breath which extinguishes the
candle will kindle and strengthen
the fire on the hearthstone.

United States 7.30 LOAN. Third Series. \$230,000,000.

By authority of the Secretary of the Treasury,
the undersigned, the General Subscription
Agent for the sale of United States securities,
offers, to the public the third series of Treasury
Notes, bearing seven and three-tenths per cent.
interest per annum, known as the

7.30 LOAN.

These notes are issued under date of July 15,
1885, and are payable three years from that date
in currency, or are convertible at the option of
the holder into

U. S. 5.20 Six per Cent.

Gold bearing Bonds.

The Bonds are now worth a handsome prem-
ium, and are exempt, as are all the Government
Bonds, from County, and Municipal taxation,
which adds from one to three per cent. per an-
num to their value, according to the rate levied
upon other property. The interest is payable
semi-annually by coupons attached to each note,
which may be cut off and sold to any bank or
banker.

The interest at 7.30 per cent. a-
mounts for

One cent per day on a \$50 note.
Two cents per day on a \$100 note.
Ten cents " " " \$500 "
Twenty cents " " " \$1,000 "
One Dollar " " " \$5,000 "

Notes of all the denominations named will be
promptly furnished upon receipt of subscriptions.
The notes of this Third Series are precisely
similar in form and privileges to the Seven
Thirtieths already sold, except that the Govern-
ment reserves to itself the option of paying in
gold, or in gold coin at 6 per cent. instead of
7.30-10th in currency. Subscribers will deduct
the interest in currency on July 15th at the
time when the subscription.

The delivery of the notes of this third series
of the seven thirtieths will commence on the first
of June and will be made promptly and con-
tinuously after that date.

The slight change made in the conditions of
the THIRD SERIES affects only the Third Series,
and does not affect the other series, which will
continue to be paid in gold, or in gold coin at 6
per cent. instead of 7.30-10th in currency. This
is the return to specie payments, in the event of
which will the option to pay interest in
gold be availed of, would so reduce and equal-
ize the price that purchases made with a 2 per cent.
in gold would be fully equal to those made with
seven and three-tenths per cent. in currency. This
is the

The only Loan in the MARKET.

Now offered by the Government, and its superi-
or advantages make it the

Great popular Loan of the People.

Less than \$230,000,000 of the Loan author-
ized by Congress are now on the market. This
amount, at the rate at which it being absorbed,
will all be subscribed for within sixty days,
when the notes will undoubtedly command a
premium, as has uniformly been the case on
closing the subscription to other Loans.

In order that citizens of every town and sec-
tion of country may be offered facilities for tak-
ing the Loan, the National Bank, State Banks
and private Banks throughout the country
have generally agreed to receive subscriptions
at par. Subscribers will select their own agents,
in whom they have confidence, and who only
are to be responsible for the delivery of the
notes for which the receive orders.
